OPERATIONAL INSTURCTIONS ON THE MOVEMENTS OF AGENTS.

From: NEW YORK

To: BUENOS AIRES

No. -

17 November 1941

1. SONIA[i] - this is SIGUERIOS.
2. What is the object of GORDON's journey to our country ?
From the point of view of our cause we do not see any purpose in it.
3. It is very important for us that the replacement of
BRIONES be hastened. If this is impossible, try to send out to
him an adviser [SOVETNIK], or a secretary from our friends[ii].
Inform us about measures taken and results.
4. Report in more detail about the friend in VICHY,
his relatives, their possibilities.
5. We are very interested in sending a strong and reliable
man to Portugal. Select such a man and report to us his personal
data [KhARAKTERISTIKA] and possibilities for the purpose of
approval.
6. Send more detailed information on the base in Portugal
about which you wrote.

7. In your letter of 13th September you wrote about the proposed departure in October of the first [person][a] to Spain and the other to Portugal. Report what sort of people they are, whether they have left, what are their tasks and what arrangements have been made for liaison.

8. Concerning the movement of Germans, Italians and other suitable people: select such people, prepare them for movement, work out thoroughly liaison with them and their possibilities, and come to an agreement with them about your measures.

9. Report what sort of steamship communication exists between your [country][a] and the other countries of South America and Europe. What [are the][a] steamships, what flags do they fly, [what are][a] the assignments of these ships, between what ports and how often do they sail? From which port and on which steamships would it be best in your opinion to move [PEREBRAS.] our people? Are they reliable captains?

10. You can write [C% also] to the first address which we fixed in our last letter. Only add after "LONG ISLAND" the word "City".

Greetings.

Comments: [i] This letter was encoded with the use of the book "Una Excursión a Los Indios Ranqueles". On 10th August 1944 NEW YORK MGB reported to MOSCOW that, for correspondence with "ARTUR", the same book had been used [S/NBF/T399, Item 1]. It is clear from other references to "ARTUR" in the NEW YORK/MOSCOW traffic that he was based in South America. It therefore seems that "ARTUR" and "SONIA" may be identical. Furthermore, on 19th May 1944 the MGB resident in NEW YORK informed MOSCOW that they had in mind sending by "GRISHA" [an agent whom they proposed sending to Chile] a letter for "ARTUR" and "ALEKSANDR" [S/NBF/T131]. "ALEKSANDR" [or "ALEX"] is mentioned in three of the letters passed between NEW YORK and BUENOS AIRES. Neither "ARTUR" nor "ALEKSANDR" is identified.

[ii] Possibly a cover-word for members of the local Communist Party.

2. MEASURES FOR ESTABLISHMENT OF RADIO COMMUNICATIONS.
3. REFERENCE TO "ALEX".

From: BUENOS AIRES

To: NEW YORK

No. -

5 July 1942

Letter no. 4.

1. I have taken into account the instructions [D% of the House [DOM][i]] in accordance with which I am reorganizing my work.

2. Local ships are no longer sailing to N.Y.[a], but to NEW ORLEANS instead. If it is convenient for you, send the address and password [PAROL']. I have reliable sailors for this in NEW ORLEANS.

3. Tomas Olloa MA*R*D[b] CHII?S SUDA HUEM*E was going to your place, but en route [the ship][c] changed course for NEW ORLEANS. RICO[d] is a friend, compatriot and comrade of his. It is possible to look for him through the friends[ii] of his teacher.

4. I have regular communication with South Africa through L. AM**IDIS, who is on his way there now. Can this not be used to send accounts [OTChETY] home ?

5. The radio point [RADIO TOChKA] [D% has two receivers and parts for a transmitter, which can be assembled in two months. Expenses for installing - about 400 dollars in [each][c] month.

Transmission times of the radio point:

1. 7896 kilocycles.
2. Characteristic [KhARAKTEROA0ekib RAVO[iii]

- T.N.: [a] As given.
- [b] Probably MADRID, though this cannot be confirmed.
- [c] Inserted by the translator.
- [d] Last letter uncertain.
- [e] The Spanish "J" has approximately the same phonetic value as the Russian "Kh", which is written as "X"

- Comments: [i] Also occurs in NEW YORK/MOSCOW MGB traffic. Probably refers to some central organization in MOSCOW.
- [ii] Possibly a cover-word for members of the local Communist Party.
- [iii] KHARAKTERIST[IKA]: This may possibly refer to some means of identification sent in a signaled message, denoting the originator.
- [iv] ALEX: Note that the book "Defense Will Not Win the War" was used for encoding by the agent known in NEW YORK/MOSCOW MGB traffic as "ALEKSANDR" [NEW YORK's external serial no. 1142 of 10th August 1944 - S/NBF.T399, Item 1]. Other references to "ALEKSANDR" suggest that he was operation in South America. It would therefore appear that "ALEX" and "ALEKSANDR" are identical. "ALEKSANDR" is unidentified.
- [v] UGALDO is not uncommon name in Chile.
- [vi] Presumably the covername proposed for or allotted to this man.
- [vii] VIAL is a not uncommon name in Chile.

1. ARRANGEMENTS FOR SENDING MONEY.
2. ARRANGEMENTS FOR RADIO COMMUNICATIONS.
3. CONTACT WITH VARIOUS PEOPLE.

From: BUENOS AIRES

To: NEW YORK

No. -

1 August 1942

Letter no. 5.

On no account send money by messenger. Paper dollars are now not quoted anywhere at this end. The best way of all is by banker's draft to the addresses given in letter no. 3[i]. You can send by instalments. If you are going to send cash [LICHNO], then post it to the already mentioned Teodoro BRONSTEIN, Zamudio 880, for BORBA[ii] from [C MIOTON][ii] Use this same address for drafts. If in cash, [it should be][a] either in pounds sterling, or in Argentine or Uruguayan pesos. Money can also be brought by courier in the form of travellers' cheques, which are normally changed here.

In letters [p] nos. 3[i] and 4[iii], I gave you my half-yearly expenditure as 6000 dollars. That is without SAShA. His [amounts to][a] 1500 to 2000. I await your precise instructions on this question.

2. I have already assembled the radio point. The frequency given in letter [P.] no. 4[iii] is inoperative. The correct one is 7012, while the call-signs are BR, yours [C% V]O. Trial transmission 30th August, 22 23 G*[iv]. Local time an hour later. Check the latter. Code as indicated in letter no. 4. I await your opinion.

In Chile, GORDON[v] has a radio apparatus, suitable also for communication with the House [DOM][vi]. He is making me a present of it as it is useless to him. Indicate whether I may use it, and if so in what way.

3. ALEX [ALEX] is here with me - he has been initiated [POSVYaShchEN] into the details. Write to him at the address given for the catalogues, on the basis of letter [P.] no. 4[vii].

4. Contact has been established with Swedish sailors on the GOTTENBURG. Are you in need of this ?

5. The following have arrived here:

a) CIARASCO from PARIS. In spite of all efforts it was quite impossible to warn him from here that he should not move. However, since he had an invitation to study at the Instituto Hispano-Germanico, he is now working out for himself the possibilities of returning. The said institute is in BERLIN.

b) ROMAN[ii] failed for obscure reasons to ascertain anything at all. I suspect that he has been recruited by Britain.

c) Also Doa ECUDIECA[b] from LIZBON. It was impossible to warn her to remain [there][a].

d) Our ships have begun to call home [D% frequently]. I am looking after their security. Could this not be used for [b% mail] with [C% Vaso AL*ROM][c], also S.*. SPAR*, trade agent [several words unrecovered] save money, and use it for purchases [1 word unrecovered].

e) Maritime [MORSKOJ][d] source in MONTEVIDEO - Luis Alberto GARCIA, Calle Nelson 3501 [4 words unrecovered].

f) I await your instructions in respect of letter [P.] no. 3[i].

Greetings.

T.N.: [a] Inserted by the translator.

[b] 2nd letter [C] uncertain.

[c] It is uncertain which of these names is the christian name.

[Continued overleaf]

- [d] Might mean "naval", but this is normally "VOENNOMORSKOJ".

Comments: [i] Not available,

[ii] Presumably a covername.

[iii] Letter no. 4 was sent on 6th July 1942 [S/NBF/T495].

[iv] Presumably means: "Trial transmissions on 30th August 2200 - 2300 hours GMT". The interpretation of the time as 2223 hours is possible but highly improbable as transmitting schedules are normally fixed at an hour, quarter-hour or half-hour.

[v] GORDON: also referred to in para. 2 of the letter from NEW YORK dated 17th November 1941 [S/NBF/T494].

[vi] DOM: Also occurs in NEW YORK/MOSCOW MGB traffic. Probably refers to some central organization in MOSCOW.

[vii] In letter no. 4 of 6th July 1942 [S/NBF/T495] it was stated that two letters for ALEX were to be sent to Elena MENESES, Calle Ecuador 3456, SANTIAGO DE CHILE.

Letter [P.] no. 9.

1. I received your letters [P.] nos. 6 and 7. The latter one proved on development to be so soiled and smudged that it was impossible to make it out. This is the second time it has happened. I could only conclude that the mail had been damaged. I was greatly distressed by this.

Please inform me:

I shall not report on GORDON's[i] child[ii] later.

Greetings.

- Comments: [i] See the letter from NEW YORK dated 17th November 1941 [S/NBF/T494] and the letter from BUENOS AIRES dated 1st August 1942 [S/NBF/T496] for other references to GORDON.
- [ii] "GORDON's child" might be a way of referring to GORDON's radio apparatus, which he was giving to the BUENOS AIRES originator of these letters [see letter no. 5 of 1st August 1942 - S/NBF/T496]. Note that this sentence was in clear.

Stop writing to the address E. KOADELL[b]. For the time being use only Anna COLLOMS' address, i.e. the one which I appointed for ALEJANDRO[c] [i].

Give warning that the friends[ii] from the newspaper "La Hora" have completely failed to arouse anxiety in SETARO[iii] by [their][a] letters. Tell his wife that she should be more careful in correspondence. She is to write nothing about the friends.

Confirm receipt of the preceding [letter][a] and of this [D% letter].

Greetings.

[b] Possibly "CORDELL" is intended. A Russian might possibly misinterpret a Latin "R" as "A"

[c] Given in the genitive form "ALEJANDRA". The Russian "ALEKSANDR" may be intended.

Comments: [i] Compare the letter of 29th September 1943 from NEW YORK [S/NBF/T500], in which instructions were given that ALEKSANDR was to be warned not to use Anna COLLOMS' address any more. It would appear that the originator of these letters had ceased to refer to this individual as "ALEX" and was now using the full version of his name. [Compare letter no. 4 of 6th July 1942 - S/NBF/T495]. ALEKSANDR is unidentified.

[ii] Ricardo Manlio Leonidas SETARO was known to the MGB organization in NEW YORK in 1944 by the cover-name "EXPRESS MESSENGER [GONETS]'. On 29th August 1944 it was stated that he was deputy head of the MaLWlfEdCIAL -8.914 August 1944
