

- Take out your smartphones, tablets, or computers and navigate to
- Type in the access code you see on the screen and choose a name for the leaderboard.
- Those who have logged in first can continually refresh their screens so the device does not time out on them before we get started.

Disclaimer: The survey was designed, administered, and conducted by people working in their individual capacities.

With the help of the international community and USG, Afghanistan has made significant progress in various areas, especially economic growth and empowerment of women and youth. This progress is essential to a lasting peace in the country!

Promoting a culture of research, inclusion of citizens, and ensuring they can anonymously share their opinions via online and digital platforms

- x Ensuring citizens' concerns and voices are heard
- x Advocating for meaningful inclusion and participation of citizens at different levels, especially grassroots levels
- x Advocating for, and ensuring that policy makers, decision makers, and parties involved in the process assure Afghans that "gains made" in the last few years are key priorities in this process
